Notice of FAST RETAILING CO., LTD.
(the “Company”, and together with its subsidiaries, the “Group”) related to the issuance of
stock-based compensation stock option (share subscription rights)

Based on the resolutions adopted at the general meeting of shareholders held on 27 November 2025, and at the board meeting of the Company held on 27 November 2025, the board of directors of the Company (the “Board”) has resolved to issue share subscription rights as stock-based compensation stock options based on Articles 236, 238 and 240 of the Companies Act of Japan.

1. Reason for issuing share subscription rights as stock-based compensation stock options

The Company issues share subscription rights for the purpose of rewarding the executive directors and the operating officers of the Company for their contribution to the Group’s profit as well as to link the Company’s share price to the benefits garnered by the executive directors and the operating officers in order to elevate their morale and their desire to enhance the Group’s performance, and fortify operations that place an emphasis on the interests of our shareholders to increase shareholder values.

2. Summary of share subscription rights (Fast Retailing 16th share subscription rights A type)

(1) Name of share subscription rights

Fast Retailing 16th share subscription rights A type

(2) Number and description of persons to be invited to apply to receive share subscription rights and number of share subscription rights issued

Executive directors of the Company 3 persons, 1,497 shares
Operating officers of the Company 40 persons, 7,631 shares

The figure above represents planned allotments. If the number of the share subscription rights to be allotted is decreased due to no subscription of some of the rights, etc., then the aggregate number of the share subscription rights to be issued shall be equal to the number of the share subscription rights to be allotted.

(3) Type and number of shares issued upon exercise of share subscription rights

Type of shares to be issued upon exercise of share subscription rights shall be the common stock of the Company and number of shares to be issued upon exercise of share subscription rights (hereinafter, the “Number of Shares Granted”) shall be 1.

Provided, however, that in case the Company carries out a share split (including the gratis allotment of common stock of the Company; the same applies to following references to the share split) or share consolidation after the date of allotment of the share subscription rights (hereinafter referred to as the “Allotment Date”) as defined in (6) below, the number of shares granted shall be adjusted according to the following formula, with the resulting fractions of less than one share occurring upon such adjustment rounded down.

$$\begin{array}{ccccc} \text{Number of shares} & & \text{Number of shares} & & \text{Ratio of share split} \\ \text{granted after} & = & \text{granted before} & \times & \text{or share} \\ \text{adjustment} & & \text{adjustment} & & \text{consolidation} \end{array}$$

In the case of a share split, the number of shares granted after adjustment shall apply from the day immediately following the record date (or effective date when no record date is specified) of the said share split. Whereas, in the case of a share consolidation, the number of shares granted after adjustment shall apply from the day the share consolidation becomes effective.

In case where the Company carries out a merger, demerger or reduce the amount of capital stock after the Allotment Date or any other cases where it is necessary to adjust the number of shares granted, the Company may make appropriate adjustment to the number of shares granted within the reasonable range. Provided, however, that in cases where the Company conducts a share split conditional on approval at a General Meeting of Shareholders of the Company and the record date for the share split shall be the day prior to the day on which said shareholders' meeting closes, the number of shares granted after adjustment shall retroactively apply from the day immediately following the applicable record date, from the day immediately following the day the applicable shareholders' meeting closes.

When the number of shares granted is adjusted, the Company shall notify the pertinent details to persons holding share subscription rights listed in the register of share subscription rights (hereinafter referred to as the "Share Subscription Rights Holder") or give public notice no later than the day immediately preceding the day the number of shares granted after adjustment becomes effective. Provided, however, that in case where the Company cannot issue such a notice or a public notice by the day immediately preceding the said effective date, it will do so immediately thereafter.

(4) The amount to be paid upon allocation of share subscription rights

The amount to be paid upon allocation of each share subscription right shall be the option price per share calculated based on the following figures from 2) to 7) according to the formula of the Black-Scholes model, multiplied by the number of shares granted, with fractions of less than ¥1 being rounded up to the nearest yen.

$$C = Se^{-qT} N(d) - Xe^{-rT} N(d - \sigma\sqrt{T})$$

In this instance,

$$d = \frac{\ln\left(\frac{S}{X}\right) + \left(r - q + \frac{\sigma^2}{2}\right)T}{\sigma\sqrt{T}}$$

- 1) Option price per share (C)
- 2) Share price (S): the closing price of common stock of the Company in regular trading on the Tokyo Stock Exchange on 18 December 2025. (If no closing price is available, then the base price for the following trading day)
- 3) Exercise price (X): ¥1
- 4) Expected remaining period (T): 6.5 years
- 5) Share price volatility (σ): share price volatility as calculated based on closing price of the common stock of the Company in regular trading on final trading day of each month over a 6.5 year period (from July 2019 to December 2025).
- 6) Risk-free interest rate (r): risk-free interest rate refers to the interest rate of Japanese government bonds corresponding to the expected remaining period.

- 7) Dividend yield (q): dividends per share (actual amount of dividend to be paid for the year ended 31 August 2025) divided by the share price as defined in 2) above.
- 8) Cumulative distribution function of standard normal distribution ($N(\bullet)$).

The option price to be calculated as described above is a fair value of the share subscription rights. Accordingly, the issuance of the share subscription rights is not an issuance of shares with favorable terms. The monetary remuneration claims of the person who will be allotted the share subscription rights against the Company (*) and their obligation to pay for the allotment of the share subscription rights will be offset.

* The Company may grant allocations to persons receiving allotments as payment of such claims, and the Company accepts liability for such allocations. However, this does not represent compensation for work performed, and neither the company nor its subsidiaries take on any obligation for payment based on the internal rules of the Company or its subsidiaries.

- (5) Value of property to be incorporated upon exercise of share subscription rights

The value of property to be incorporated upon exercise of the share subscription rights shall be the exercise price of ¥1 per share to be delivered upon exercise of each share subscription right, multiplied by the number of shares granted.

- (6) Date of allotment of share subscription rights

19 December 2025

- (7) Exercise period of share subscription rights
